## **OSI Systems Begins Operations for Turn-Key Cargo Scanning Services for Puerto Rico Ports Authority**

HAWTHORNE, Calif.--(BUSINESS WIRE)-- [OSI Systems, Inc.](#) (NASDAQ:OSIS), a vertically-integrated provider of specialized electronic products for critical applications in the Security and Healthcare industries, today announced its security division, Rapiscan Systems, commenced operations of the container screening program at the Port of San Juan, Puerto Rico. Rapiscan's screening solution business, S2 Global, recently received official notice of the first site's completion and readiness which cleared the way for operations to begin.

Deepak Chopra, President and CEO of OSI Systems, stated: "We are excited about the launch of our Puerto Rico scanning operations. Commercial and government agencies continue to evaluate our screening-as-a-service model as an efficient alternative that reduces upfront capital investment and offers an innovative approach to handling ongoing maintenance and staffing requirements, while completing screening in a rapid manner."

Rapiscan's screening solution business provides screening and support services to inspect cargo traffic at locations including ports of entry, border crossings and transportation hubs. Expertly trained operators are deployed to provide customers with a turn-key solution to address inspection and security needs.
