## OSI Systems Announces Spacelabs Healthcare Introduction of CardioExpress(R)

HAWTHORNE, Calif., Apr 21, 2010 (BUSINESS WIRE) -- OSI Systems, Inc. (NASDAQ: OSIS), a vertically-integrated provider of specialized electronic products for critical applications announced that its Healthcare Division, Spacelabs Healthcare, has introduced globally CardioExpress(R), the Company's latest product in its range of ECG devices. The Spacelabs CardioExpress(R) SL12 and SL6 Resting ECG units offer clinicians convenience and flexibility assuring fast and accurate interpretive 12-lead ECG acquisition. Both devices integrate with Sentinel, Spacelabs Healthcare's Cardiology Information Management System, for measurement, interpretation and reporting. Features include a clear touch screen, USB bar code scanner compatibility and storage of 200 ECGs.

CardioExpress(R) SL12 and SL6 are easy to use and highly configurable. Their advanced design allows the operator to quickly meet the needs of patients from adults to pediatrics. SL12 supports optimal workflow in high volume environments while the lightweight SL6 is designed for any working environment and provides a cost-effective solution for hospital departments, routine checks, home visits by clinicians, and emergency cases.

A complete range of trolleys with convenient storage for essential supplies and accessories is available for the CardioExpress(R) product range. All trolleys are designed to meet the needs of a busy hospital or clinic.

OSI Systems Chairman and CEO, Deepak Chopra, said, "We are pleased to expand our portfolio of Diagnostic Cardiology solutions with the global launch of the Spacelabs CardioExpress(R). We believe that the CardioExpress(R) will improve Clinicians workflow and information quality while enhancing patient safety."

### About OSI Systems, Inc.

OSI Systems, Inc. is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications in the homeland security, healthcare, defense and aerospace industries. We combine more than 30 years of electronics engineering and manufacturing experience with offices and production facilities in more than a dozen countries to implement a strategy of expansion into selective end product markets.
