- Record Q4 Revenues of \$332 Million (20% year-over-year increase)
- Q4 Earnings Per Diluted Share
 - Record GAAP EPS of \$1.40
 - Record Non-GAAP EPS of \$1.54 (26% year-over-year increase)
- Company Provides Fiscal 2022 Revenue and Non-GAAP EPS Guidance

HAWTHORNE, Calif.--(BUSINESS WIRE)--August 18, 2021--OSI Systems, Inc. (the "Company" or "OSI Systems") (NASDAQ: OSIS) today announced financial results for the fourth quarter and fiscal year ended June 30, 2021.

Deepak Chopra, OSI Systems' Chairman and Chief Executive Officer, said "We are pleased with our performance for fiscal 2021 and for the fourth quarter, as we finished with record fourth quarter revenues and earnings per share driven by outstanding performance in each of our Security and Optoelectronics and Manufacturing divisions. We enter fiscal 2022 with significant backlog and a robust pipeline of opportunities to enable us to continue the positive momentum."

The Company reported revenues of \$332.2 million for the fourth quarter of fiscal 2021, an increase of 20% from the \$277.0 million reported for the fourth quarter of fiscal 2020. Net income for the fourth quarter of fiscal 2021 was \$25.9 million, or \$1.40 per diluted share, compared to net income of \$14.0 million, or \$0.76 per diluted share, for the fourth quarter of fiscal 2020. Non-GAAP net income for the fourth quarter of fiscal 2021 was \$28.5 million, or \$1.54 per diluted share, compared to non-GAAP net income for the fourth quarter of fiscal 2020 of \$22.5 million, or \$1.22 per diluted share.

For the fiscal year ended June 30, 2021, revenues decreased by 2% to \$1.147 billion compared to \$1.166 billion in the prior fiscal year. Net income for fiscal 2021 was \$74.0 million, or \$4.03 per diluted share, compared to net income of \$75.3 million, or \$4.05 per diluted share, in the prior fiscal year. Non-GAAP net income for the fiscal year ended June 30, 2021 was \$97.9 million, or \$5.32 per diluted share, compared to non-GAAP net income of \$85.6 million, or \$4.60 per diluted share, for the 2020 fiscal year.

During the three months ended June 30, 2021, the Company's book-to-bill ratio was approximately 1.0. As of June 30, 2021, the Company's backlog was \$1.076 billion compared to \$861 million as of June 30, 2020. During the quarter ended June 30, 2021, operating cash flow was \$8.0 million, and net capital expenditures were \$4.6 million. For the fiscal year ended June 30, 2021, operating cash flow was \$139.1 million, and net capital expenditures were \$15.8 million.

Mr. Chopra stated, "We are pleased with the fourth quarter performance of the Security division, which reported a 23% year-over-year increase in revenues coupled with significant adjusted operating margin expansion. This was driven by strength across multiple geographic channels and across the bulk of the product portfolio. We believe the Security division is poised for further success as we enter fiscal 2022 with a strong backlog and a streamlined cost structure."

Mr. Chopra further commented, "Our Optoelectronics and Manufacturing division performed exceptionally well and ended the fiscal year with record fourth quarter sales, bookings, and backlog. Fourth quarter revenues increased 37% year-over-year with continued solid profits. We believe the business is well positioned for continued growth as we enter fiscal 2022."

Mr. Chopra continued, "Our Healthcare division made significant improvements in fiscal 2021 with 15% sales growth and noteworthy operating margin expansion. As expected, fourth quarter revenues were comparatively down year-over-year due to a surge in international demand in Q4 of fiscal 2020 for our patient monitoring products at the inception of the pandemic."

Fiscal Year 2022 Outlook

For fiscal year 2022, the Company anticipates revenues in the range of \$1.190 billion to \$1.225 billion and non-GAAP earnings per diluted share in the range of \$5.72 to \$6.00. Actual revenues and non-GAAP diluted earnings per share could vary from this guidance due to factors discussed under "Forward-Looking Statements" or other factors, including uncertainties as to the duration and scope of the COVID-19 pandemic.

The Company's fiscal 2022 diluted earnings per share guidance is provided on a non-GAAP basis only. The Company does not provide a reconciliation of guidance for non-GAAP diluted EPS to GAAP diluted EPS (the most directly comparable GAAP measure) on a forward-looking basis because the Company is unable to provide a meaningful or accurate compilation of reconciling items and certain information is not available. This is due to the inherent difficulty and complexity in accurately forecasting the timing and amounts of various items included in the calculation of GAAP diluted EPS but excluded in the calculation of non-GAAP diluted EPS, such as acquisition costs and other non-recurring items that have not yet occurred, are out of the Company's control, or cannot otherwise reasonably be predicted. For the same reasons, the Company is unable to address the significance of unavailable information which may be material and therefore could result in GAAP diluted EPS, the most directly comparable GAAP financial measure, being materially different from projected non-GAAP diluted EPS.

Presentation of Non-GAAP Financial Measures

This earnings release includes a presentation of non-GAAP net income, non-GAAP diluted earnings per share, non-GAAP operating income (loss) by segment and non-GAAP operating margin, all of which are non-GAAP financial measures. The presentation of these non-GAAP figures for the three months and fiscal years ended June 30, 2020 and 2021 is provided to allow for the comparison of the underlying performance of the Company, net of impairment, restructuring and other charges (including certain legal costs), amortization of intangible assets acquired through business acquisitions and non-cash interest expense primarily related to convertible debt, and their associated tax effects, and the impact of discrete income tax items. Although we exclude amortization of acquired intangible assets from our non-GAAP figures, we believe that it is important for investors to understand that revenue generated from such intangibles is included within revenue in determining non-GAAP financial measures of the Company. Management believes that these non-GAAP financial measures provide (i) enhanced insight into the ongoing operations of the Company, (ii) meaningful information regarding the Company's financial results (excluding amounts management does not view as reflective of ongoing operating results) for purposes of planning, forecasting, and assessing the performance of the Company's businesses, (iii) a meaningful comparison of financial results of the current period against results of past periods, and (iv) financial results that are generally more comparable to financial results of peer companies than are GAAP figures. Non-GAAP financial measures should not be assessed in isolation or as a substitute for measures of financial performance prepared in accordance with GAAP. These non-GAAP measures may not be the same as measures used by other companies due to possible differences in methods and in the items or events for which adjustments are made.

Reconciliations of GAAP to non-GAAP financial information are provided in the accompanying tables. The financial results calculated in accordance with GAAP and reconciliations from those financial results should be carefully evaluated.
