OSI Systems Introduces qube™ Patient Monitor

HAWTHORNE, Calif.--(BUSINESS WIRE)-- [OSI Systems, Inc.](http://www.osi-systems.com) (NASDAQ: OSIS), a vertically-integrated provider of specialized electronic products for critical applications in the Security and Healthcare industries, today announced that its Healthcare division, Spacelabs Healthcare, has received clearance under Section 510(k) from the U.S. Food and Drug Administration to market *qube*™, a new compact monitor. Small and lightweight — with a long life battery — *qube* offers portability, accessibility and heightened connectivity — perfect for emergency, general/step-down, and post-anesthesia care units. Caregivers can access current, critical patient information, from bedside throughout transport, to provide the ultimate level of patient care.

"*qube*™ is designed to create a patient-friendly experience and offer the healthcare provider full functionality, accessibility and device portability, thereby significantly enhancing patient care throughout the hospital environments," said Deepak Chopra, OSI Systems CEO.

About OSI Systems, Inc.

OSI Systems, Inc. is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications in the homeland security, healthcare, defense and aerospace industries. We combine more than 30 years of electronics engineering and manufacturing experience with offices and production facilities in more than a dozen countries to implement a strategy of expansion into selective end product markets.
