## **OSI Defense Systems Announces Contract Win For Weapons Simulation Products**

**October 03, 2005: Hawthorne, CA**

OSI Systems, Inc. today announced that its wholly owned subsidiary, OSI Defense Systems, has received a contract from Science Applications International Corporation (SAIC). The contract is for a suite of its Advanced MILES Plus military training products and is expected to be completed by March 2007.

The OSI Defense Systems product line is used worldwide in military combat training environments for force-on-force training exercises utilizing eye-safe laser technology. Under the contract OSI Defense will manufacture a large number of vehicle and anti-tank combat training systems and develop an advanced aviation combat training solution for delivery to the Egyptian Armed Forces.

Wayne Magill, President of OSI Defense Systems stated, "We are pleased to announce this significant order for the Defense Systems business unit. This follow on award reinforces the satisfaction of our customer base with fielded products and expresses confidence in our ability to extend our aviation product line to meet the requirements of the Egyptian Armed Forces.

The OSI Defense Systems product line is used by armed forces and first responder security personnel to improve operational readiness through objective performance measurement. These proprietary products enable users to engage in force-on-force mock combat training exercises to improve threat response tactics and operational readiness and threat response tactics.

### **About OSI Defense Systems:**

OSI Defense Systems, a wholly owned subsidiary of OSI Systems, Inc., is a leading supplier of high quality eye safe combat training systems utilizing Multiple Integrated Laser Engagement Systems technology. The company's products are sold worldwide into the armed forces and protective force services market segments.
