OSI Systems Announces the Deployment of Rapiscan Secure 1000 Single Pose Body Scanners at Los Angeles International Airport

HAWTHORNE, Calif., Jul 27, 2010 (BUSINESS WIRE) -- OSI Systems, Inc. (NASDAQ:OSIS), a vertically-integrated provider of specialized electronic products for critical applications in the Security and Healthcare industries, today announced that Rapiscan Secure 1000(R) Single Pose systems are now being deployed at Los Angeles International Airport. This system is being deployed as part of the U.S. Transportation Security Administration's (TSA) Advanced Imaging Technology (AIT) program in an effort to help TSA safeguard air travel and mitigate potential security threats.

OSI Systems CEO, Deepak Chopra, stated, "We are proud to have Secure 1000 platforms deployed at LAX, one of the world's busiest airports. The Secure 1000 has rapidly become the most widely deployed advanced people screening solution in the world."

About OSI Systems, Inc.

OSI Systems, Inc. is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications in the homeland security, healthcare, defense and aerospace industries. We combine more than 30 years of electronics engineering and manufacturing experience with offices and production facilities in more than a dozen countries to implement a strategy of expansion into selective end product markets.
