

**OSI** SYSTEMS, INC.

SECURITY, OPTOELECTRONICS AND HEALTHCARE  
SOLUTIONS FOR A SAFER & HEALTHIER WORLD

Investor Presentation  
June 2023

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements relate to the Company's current expectations, beliefs, and projections concerning matters that are not historical facts and are not guarantees of future performance. Forward-looking statements involve uncertainties, risks, assumptions and contingencies, many of which are outside the Company's control and which may cause actual results to differ materially from those described in or implied by any forward-looking statement. Such statements include, but are not limited to, information provided regarding expected revenues, earnings, growth, operational performance, and impact of the COVID-19 pandemic for fiscal 2023 and thereafter. For a further discussion of factors that could cause the Company's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2022 and other risks described therein and in documents subsequently filed by the Company from time to time with the Securities and Exchange Commission. All forward-looking statements are based on currently available information and speak only as of the date on which they are made. Investors should not place undue reliance on forward-looking statements as a prediction of actual results. The Company assumes no obligation to update any forward-looking statement made in this investor presentation that becomes untrue because of subsequent events, new information or otherwise, except to the extent it is required to do so in connection with its ongoing requirements under federal securities laws.

This presentation includes certain non-GAAP financial measures. The presentation of these non-GAAP figures is provided to allow for the comparison of the underlying performance of the Company, net of impairment, restructuring, and other charges (including certain legal costs), amortization of intangible assets acquired through business acquisitions, gain on sale of property in fiscal 2022, and non-cash interest expense primarily related to convertible debt, and their associated tax effects, and the impact of discrete income tax items including charges resulting from the Tax Cuts and Jobs Act (the "Tax Act"). Although we exclude amortization of acquired intangible assets from our non-GAAP figures, revenue generated from such intangibles is included within revenue in determining non-GAAP financial performance of the Company. Management believes that these non-GAAP financial measures provide (i) enhanced insight into the ongoing operations of the Company, (ii) meaningful information regarding the Company's financial results (excluding amounts management does not view as reflective of ongoing operating results) for purposes of planning, forecasting, and assessing the performance of the Company's businesses, (iii) a meaningful comparison of financial results of the current period against results of past periods, and (iv) financial results that are more comparable to financial results of peer companies than are GAAP figures. Non-GAAP financial measures should not be assessed in isolation or as a substitute for measures of financial performance prepared in accordance with GAAP. These non-GAAP measures may not be the same as measures used by other companies due to possible differences in methods and in the items or events for which adjustments are made. Reconciliations of GAAP to non-GAAP financial information are included within this presentation.

# OSI Systems is a Leading Provider of Advanced, High-Reliability Electronics Solutions for Critical Applications in Diversified Essential Markets

**OSI** SYSTEMS, INC.

## SECURITY

- Checked Baggage Screening, Baggage and Parcel Inspection
- Cargo and Vehicle Inspection
- People Screening, Radiation, Explosive, and Narcotics & Contraband Trace Detection
- Integrated Solutions

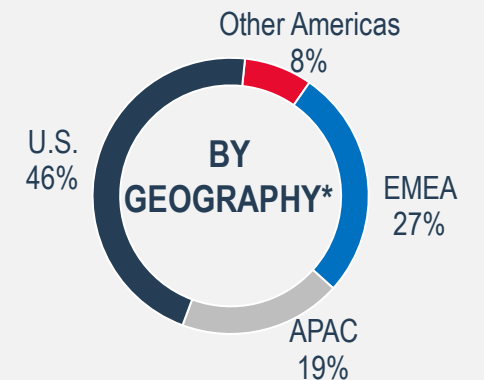

## OPTOELECTRONICS

- Custom Design and Manufacturing for Military, Aerospace, Healthcare, Security, Telecommunications, Industrial and Other Markets
- OEM Contract Manufacturing

## HEALTHCARE

- Patient Monitoring and Connectivity
- Cardiology and Remote Monitoring
- Supplies and Accessories

**\$1.2B REVENUE**  
(Fiscal Year Ended June 30, 2022\*)

\* Third party net sales

- Diverse **essential markets provide new opportunities for growth**
- **Strong topline** driven by organic growth and contributions from successful acquisitions
- **Record Q3 ended \$1.5 billion backlog, recent large security contract awards and growing high-margin service revenues increasing visibility**
- Competitive strengths in **technology leadership, portfolio breadth, turnkey solutions experience, and vertically-integrated, low-cost manufacturing**
- **Excellent long-term cash generation and strong balance sheet** provide flexibility for continued investment

✓ Large and growing global marquee customer base

✓ Robust product pipeline delivering next-gen solutions

✓ Contract wins increasing competitive position

✓ Targeting large opportunities in attractive markets

## DIVERSIFIED REVENUE MODELS

### SYSTEMS

### SERVICE

### TURNKEY

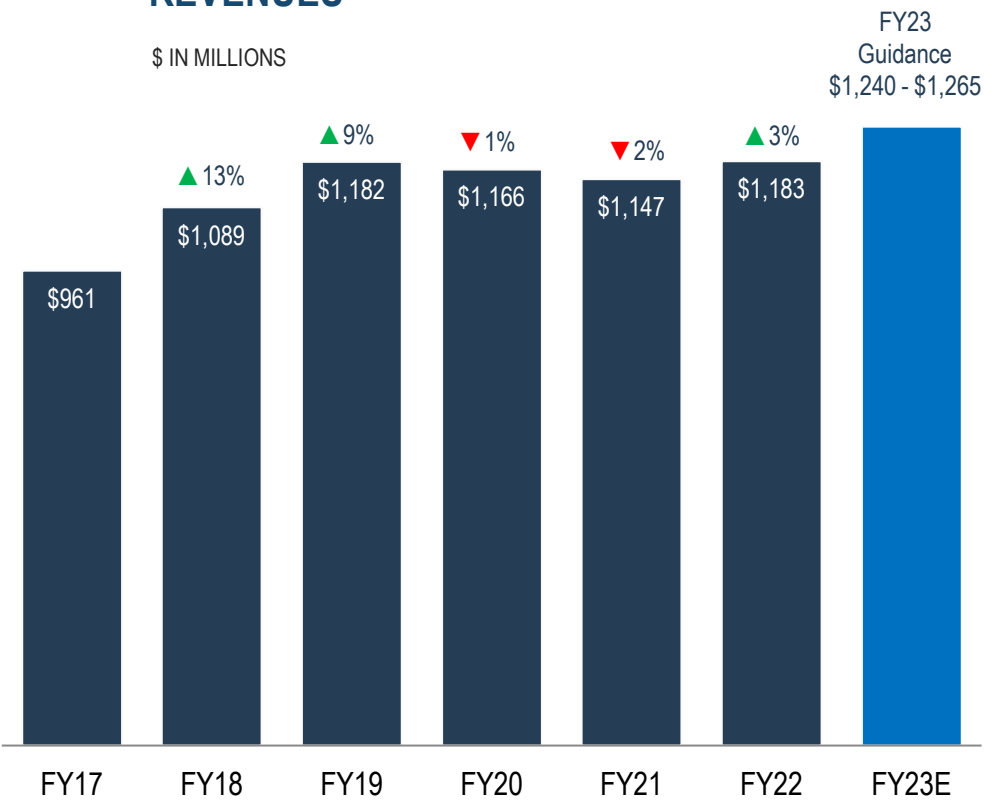

SaaS (SECURITY AS A SERVICE)

Track record of consistent, strong EPS growth

REVENUES

\$ IN MILLIONS

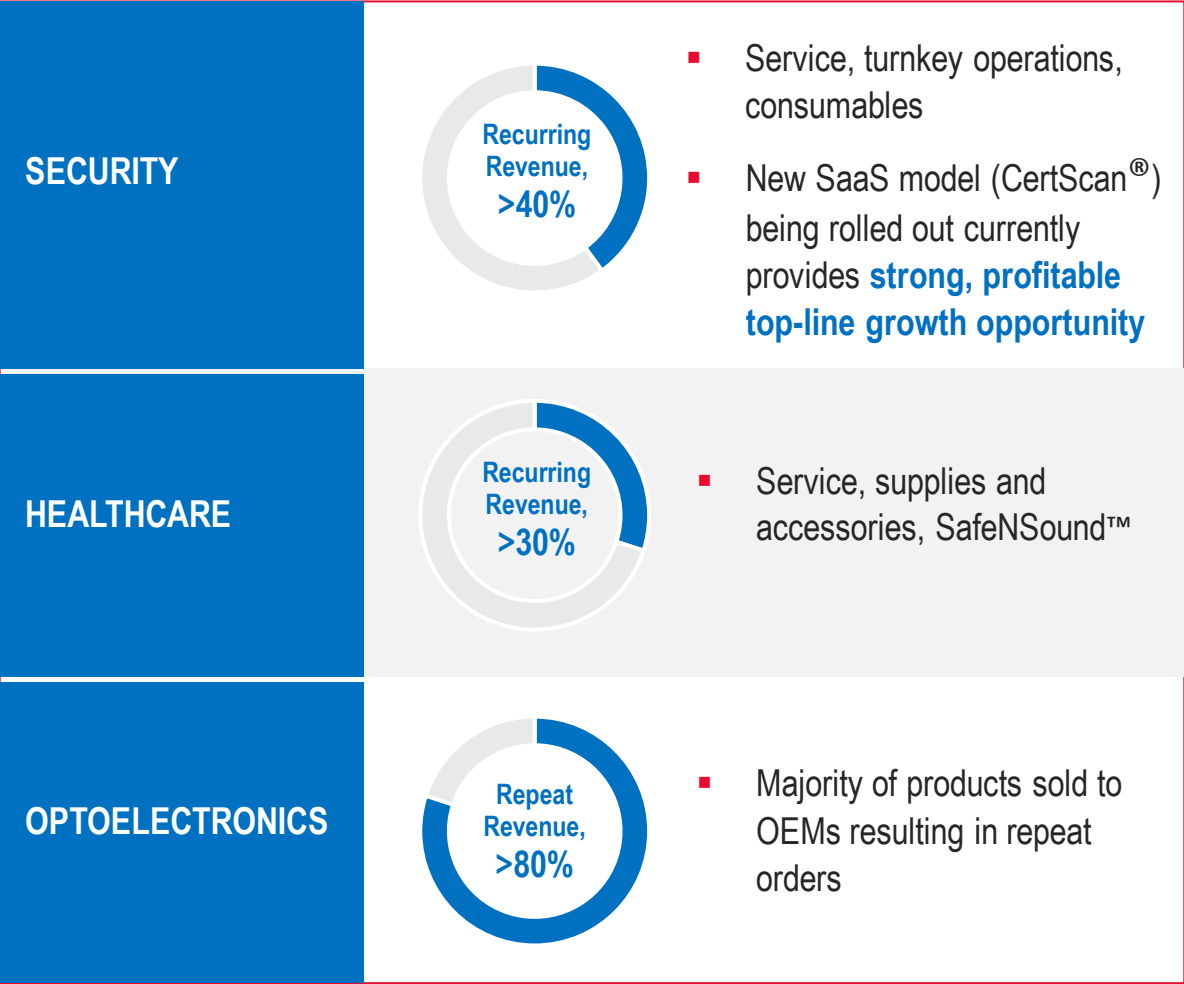

Non-GAAP EPS\*

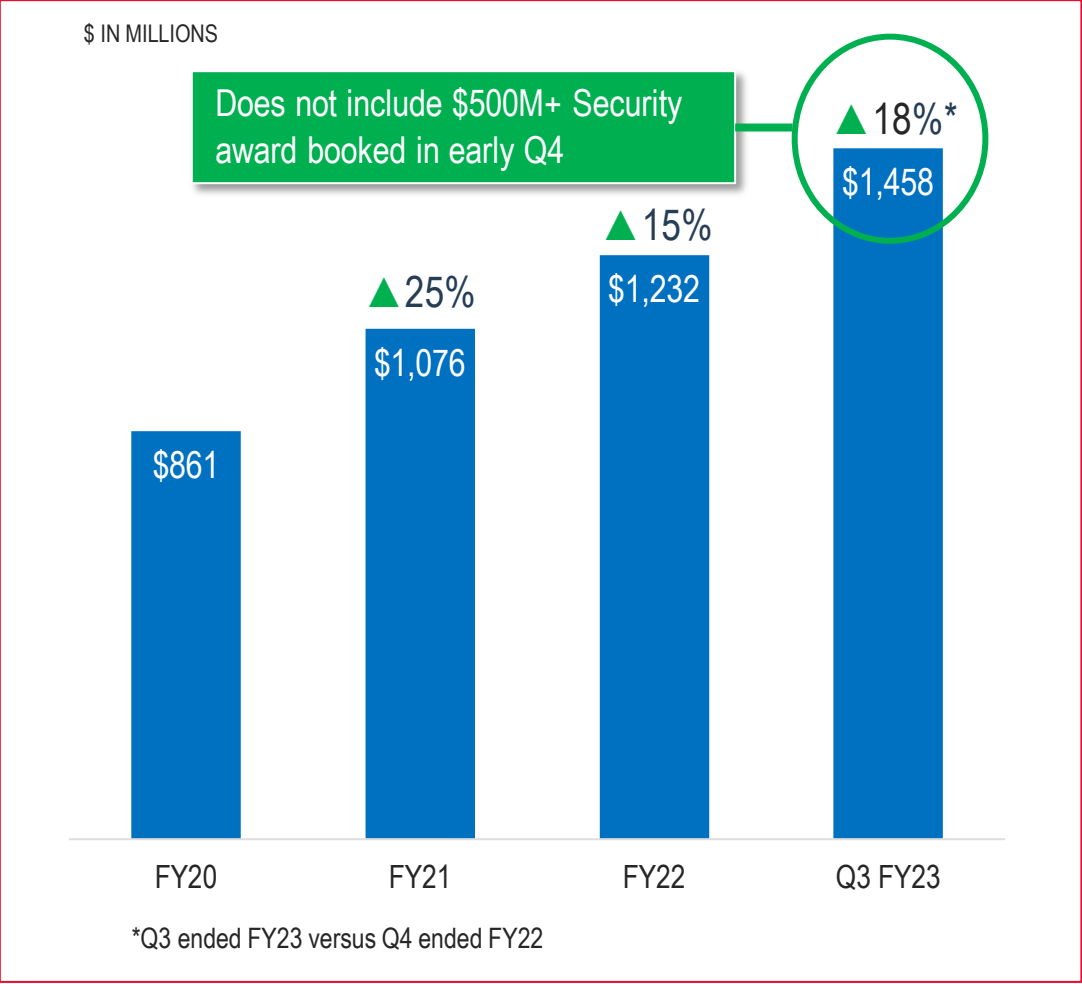

June 30 fiscal year end

\* Excludes impairment, restructuring, and other charges (including certain legal costs), amortization of intangible assets acquired through business acquisitions, gain on sale of property in FY22, non-cash interest expense, gain from the disposition of a business in FY17, and their associated tax effects, and the impact from discrete income tax items including charges resulting from the Tax Act. See reconciliation on page 34.

## SIGNIFICANT RECURRING / REPEAT SERVICE REVENUE (% OF TOTAL REVENUE)

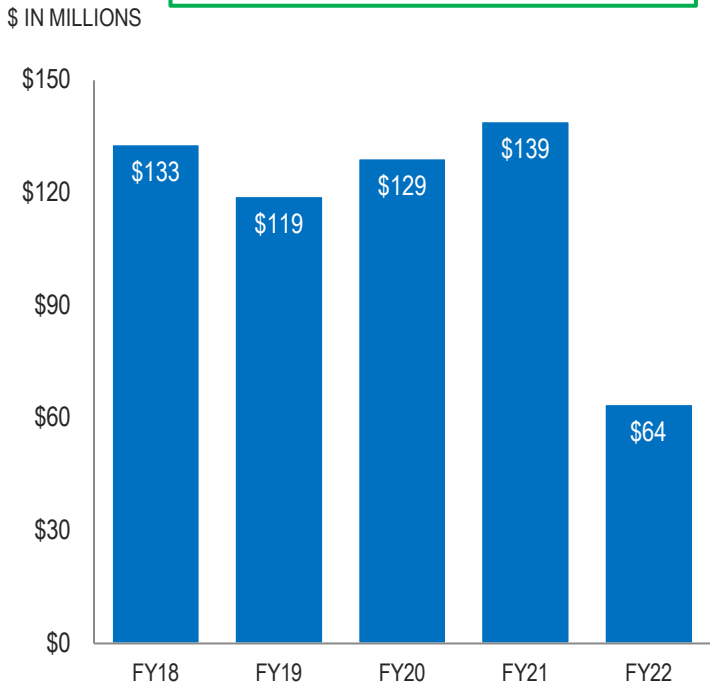

## RECORD Q3 FY23 \$1.5 BILLION BACKLOG

Recent cash flow reflects inventory build to support the strong backlog.  
Significant share repurchases.

## STRONG OPERATING CASH FLOW

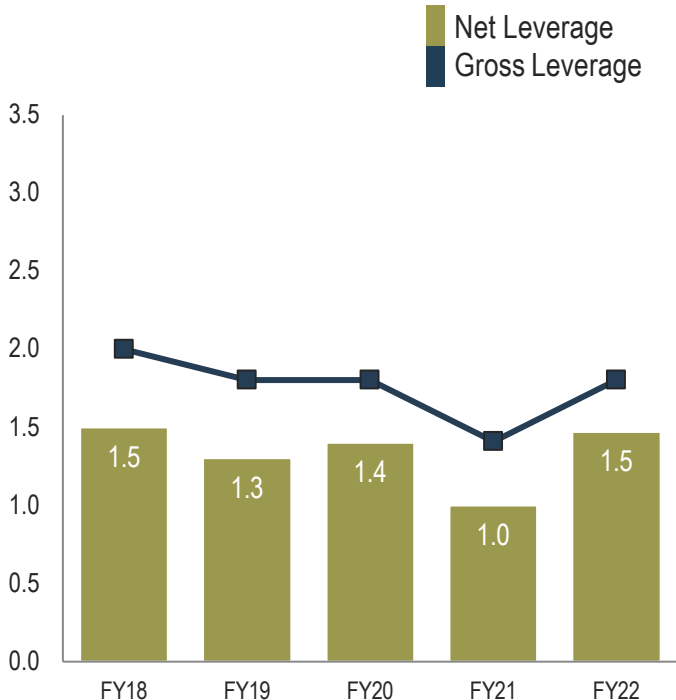

> \$500 million in operating cash flow over last 5 years

## DISCIPLINED CASH MANAGEMENT & INVESTMENT

## LOW LEVERAGE POSITION

## SECURITY

- Innovative , affordable, and flexible end-to-end offerings in large addressable **integrated security screening solutions** market
- Global demand for high performance threat detection screening solutions spurred by **public and private sector** mandates
- Pipeline of **advanced cost-effective solutions**

## OPTOELECTRONICS

- Large and growing customer base offers **higher-margin opportunities across multiple industries**
- **Competitive manufacturing cost** structure
- **New technologies / new products** (e.g., high density flex circuits and hi-rel semiconductors)
- **Customers actively seeking versatile partners**

## HEALTHCARE

- **Multi-year contracts** with major Group Purchasing Organizations (GPOs)
- **New product introductions**
- **Clinical Decision Support analytics and Clinical Workflow**
- Positioning for **emerging hospital-to-home health continuum** patient monitoring

# Technology Leadership is a Primary Competitive Advantage

## BROAD, LEADING TECHNOLOGY PLATFORMS AND PRODUCT LINES PROVIDE HIGHLY ATTRACTIVE ONE-STOP-SHOP ADVANTAGE

- ✓ Deep expertise in critical technologies and a **proven track record of delivering break-through solutions generates competitive advantage**
- ✓ Security division acquisitions complemented pre-existing technology suite and significantly expanded platform and pipeline
- ✓ New product introductions and acquisitions with sizeable revenue potential
  - ✓ Next-gen CT technology (RTT®) for hold-baggage screening
  - ✓ Acquired optical inspection & software technology
- ✓ Significant ongoing investment in R&D to grow product pipelines and continuously improve performance

Advisor to U.S. Department of Homeland Security on advanced technology development initiatives

*"...the best equipment we have out there."*

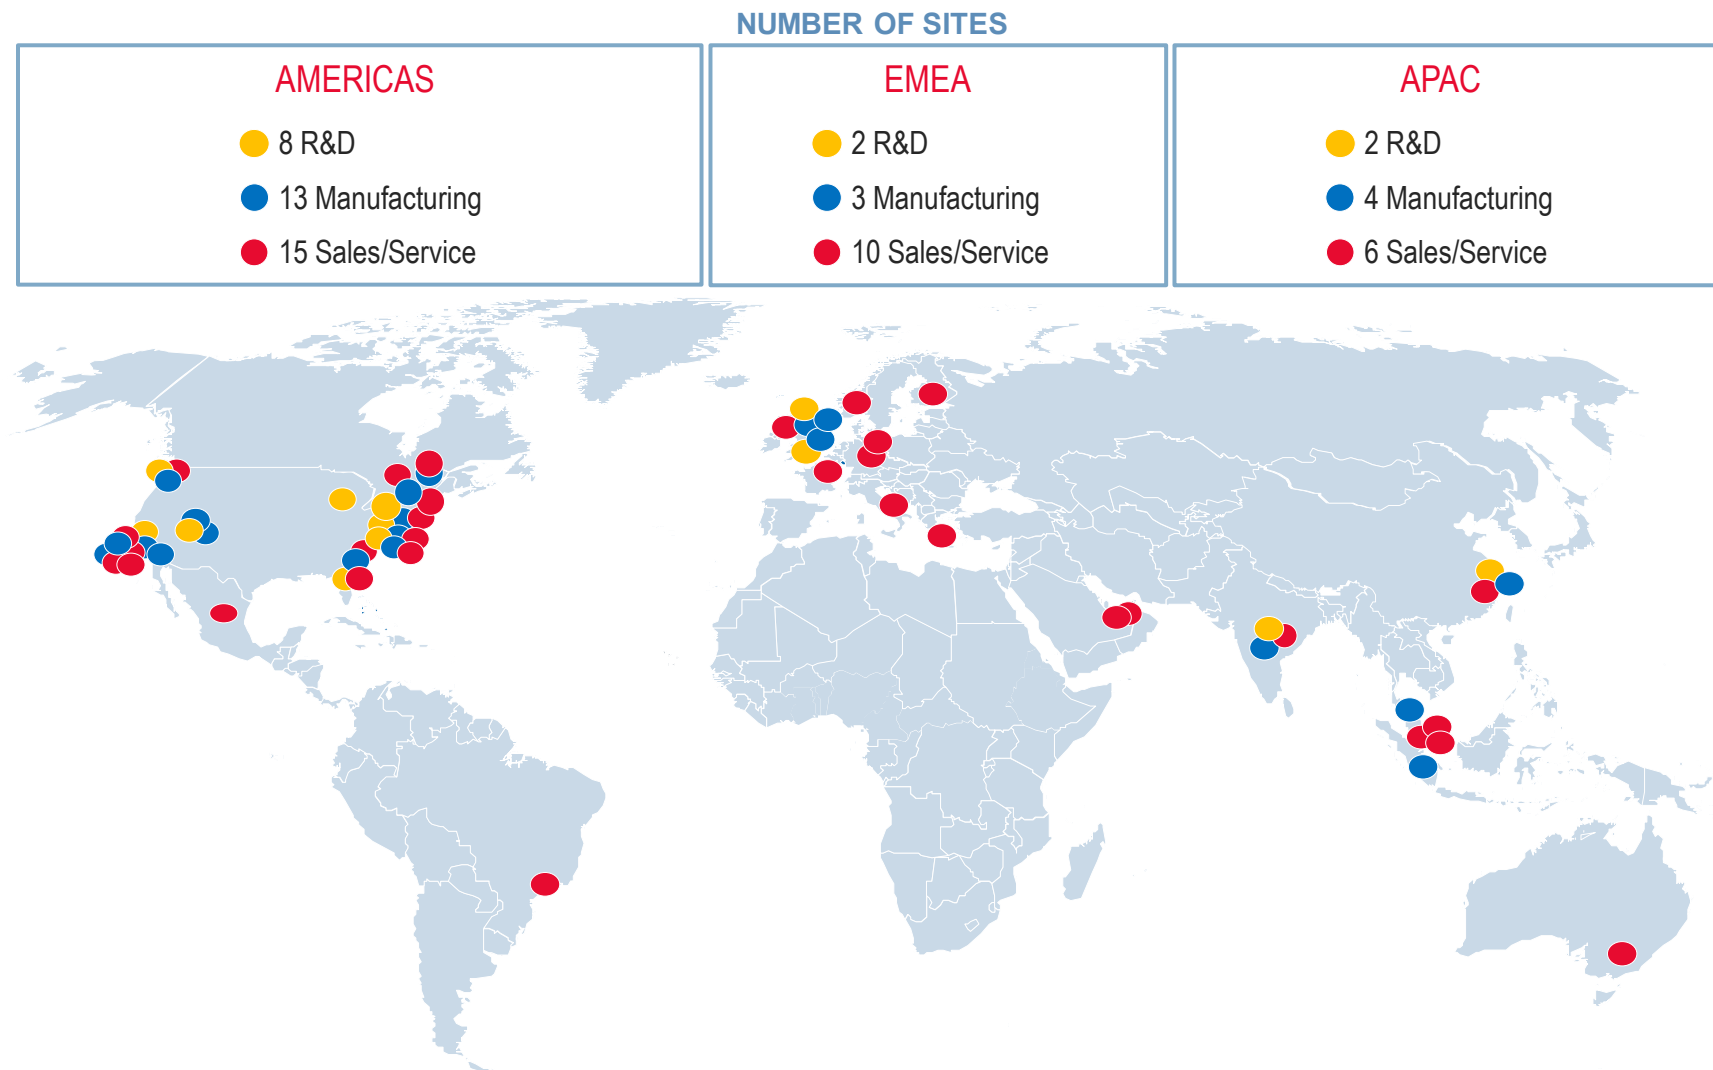

- U.S. Customs and Border Protection

# Global Vertically-Integrated Footprint

Global engineering and manufacturing expertise, vertical integration, efficient cost structure, global sales channel, and service excellence provide competitive advantage

## OSI SECURITY DIVISION

### GLOBAL LEADER IN SECURITY SCREENING SOLUTIONS

# OSI Security Division: Global Leader in Security Screening Market

Rapiscan Systems | AS&E | S2 Global

**OSI** SYSTEMS, INC.

## BUSINESS OVERVIEW

- ✓ **Leading global provider of security inspection solutions, equipment and services** for aviation, ports, rail, customs and border protection, event security, critical infrastructure, public facilities, and law enforcement
- ✓ Superior scale, breadth of offering, and competitive position
- ✓ Leadership in large turnkey projects
- ✓ Leadership in integrated screening solutions
- ✓ Technology leader

## SCREENING SOLUTIONS

S2 Global Operations  
CertScan® Integration Platform  
S2 University

- Multi-year comprehensive follow-on service and on-site maintenance support contracts
- Higher margin sales
- New projects
- Integration SaaS, Software as a Service

## Global Operations

Innovative, customer-focused solution design & development, consulting, staffing and training enabling affordable access to state-of-the-art technology

## Training Platforms

Pre-recruitment assessment tools

Systems and inspection training programs

## SECURITY AS A SERVICE

### CertScan® Integration Platform

Inspection integration SaaS platform leveraging system, data and user actions to automate the inspection process for trade, transport & events

### Event Security

Technology needs assessment, operational procedures including traffic flows, people and vehicle entry point screening, providing technology, integration, and in-depth training for security and support staff

## GROWTH OPPORTUNITIES

- ✓ Global public and private mandates for always-on, effective, advanced technologies and highly-trained operators capable of delivering high-speed inspections at large scale and efficient operating cost
- ✓ **Moving into adjacent markets by providing operational expertise, CertScan® integration and S2 University training platforms**

# State-of-the-Art, Integration Platform and Training for Inspection

## GLOBAL INSPECTION INTEGRATION MARKET OVERVIEW

- ✓ Automation of inspection operations worldwide
- ✓ Facilitates remote monitoring
- ✓ Opportunity to expand beyond ports and borders

## CERTSCAN

- ✓ Leading inspection integration platform driving automation of information delivery for expedited decision making
- ✓ Vendor agnostic platform
- ✓ Large and growing installed base including U.S. Customs and Border Protection, multiple border entry lanes in Abu Dhabi, Guatemala, Costa Rica, Panama, Mexico
- ✓ Inter-agency and cross-country data sharing
- ✓ Software as a Service model
- ✓ Data capture platform for recurrent user training

# Large-Scale Turnkey Screening Solutions: Market Leader

Demonstrated ability to develop, integrate, and operate comprehensive large-scale, cutting-edge screening systems, staffing, systems integration, and support

## CHARACTERISTICS

- ✓ Flexible, service-based revenue model – scanning industry first
- ✓ **Large-scale, multi-year** projects with recurring revenue
- ✓ Represents a meaningful portion of division revenues
- ✓ **Higher margin** sales
- ✓ Capex requirement in initial build-out phase with solid return on investment
- ✓ Longer sales cycle

## GROWTH OPPORTUNITIES

- ✓ Global demand for large-scale, state-of-the-art, integrated screening solutions in cargo inspection segment
- ✓ Expanding beyond cargo segment over long term, including expansion into air freight, passengers and events
- ✓ Deploying solution tools for integration and training as SaaS model with recurring revenue
- ✓ **Significant opportunity pipeline**

# Cargo and Vehicle Inspection Systems: Significant Global Penetration Opportunity with New Portfolio Additions

## INDUSTRY LEADERSHIP

- ✓ **Strong market share of wide range of scanning technologies enhanced with acquired Z Backscatter® cargo and vehicle scanning systems**
- ✓ Significant contract wins in the U.S., Middle East, and Latin America
- ✓ High image quality with flexible configurations
  - ✓ Mobile, portal, gantry, ruggedized
  - ✓ Integration of transmission and backscatter technologies
- ✓ Proven screening services business model (industry-first): low upfront cost to outsource service; full benefit without cost of ownership

## GROWTH OPPORTUNITIES

- ✓ **Demand in U.S. and international markets for customs enforcement, border and force protection, and narcotics interdiction**
- ✓ Government and private port, border, facility security, and law enforcement applications
- ✓ Customs agencies today scan only a low percentage of inbound containers

# Hold Baggage Screening: Significant Replacement Opportunity with Patented High-Performance Next-Gen CT Technology – RTT® 110

## GLOBAL HOLD (CHECKED) BAGGAGE SCREENING MARKET OVERVIEW

- ✓ EU mandatory transition from conventional multi-view X-ray (EDS Standard 2) to CT (EDS Standard 3): large market growth opportunity
- ✓ Air cargo market upgrading to ACSTL and EDS Standard 3
- ✓ New markets developing outside of aviation

## RAPISCAN RTT

- ✓ RTT110 is ECAC, TSA, ACSTL and CAAC approved
- ✓ Leading capability in aviation and parcel screening driven by efficient and reliable integration and detection platforms
- ✓ Large and fast-growing installed base including Paris, Rome, UK, Oslo and Dubai airports together with DHL, FedEx, UPS and other parcel forwarders
- ✓ Detection and imaging utilizing patented Real Time Tomography (RTT) technology
- ✓ Low life-cycle cost – proving highly attractive to customers
- ✓ Recent algorithm development of the RTT110 has enabled branching into bio-security

# High-Performance Baggage and Parcel Inspection Systems: Well-Positioned in Expanding Government and Commercial Markets

## INDUSTRY LEADERSHIP

- ✓ Checkpoint X-ray system – **strong worldwide market share**
  - Significant installed base
  - Single and dual-view technology, superior imaging, and high efficiency
  - Pipeline of competitive products with industry-leading image quality
    - Ergonomic industrial design to suit contemporary airport concourse architectures
  - **Global regulatory approvals**
    - Wide set of aviation and cargo certifications support U.S. and International deployment

## GROWTH OPPORTUNITIES

- ✓ Approved air cargo screening systems
- ✓ **Replacement life cycle business**
- ✓ **Emerging market opportunities**
- ✓ **New ORION® suite of products**
- ✓ Non-aviation (sports / public venues, government, critical infrastructure)
- ✓ Integrated checkpoint solutions
- ✓ CT at the checkpoint (initial focus on international opportunities)

# Trace Detection: Opportunity to Capitalize with Leading Products

## INDUSTRY LEADERSHIP

- ✓ Suite of industry-leading, patented technologies with high sensitivity and low false alarm rates
- ✓ Itemiser® 5X — approved for TSA Air Cargo Screening, CAAC approved
- ✓ Desktop, handheld, and walk-through portal products
- ✓ Trusted partner to international governments for critical infrastructure protection
- ✓ Global service and training organization

## GROWTH OPPORTUNITIES

- ✓ International aviation market opportunity
- ✓ Additional opportunities beyond aviation for critical infrastructure, events, transportation hubs, first responders and borders
- ✓ Narcotics (including opioids) detection market for prisons
- ✓ Profitable, recurring service and consumable revenue stream as well as replacement market opportunities
- ✓ Partnership with Metrohm USA on handheld Raman spectrometers offers entry into mini-bulk narcotics, explosives, toxic chemical detection markets

## OSI OPTOELECTRONICS AND MANUFACTURING DIVISION

### SENSORS, DETECTORS, AND ELECTRONICS

# Leading Provider of Advanced, Custom, High-Precision Optoelectronic and Electronic Assembly Systems

## BUSINESS OVERVIEW

- ✓ Trusted partner of leading, innovative sensors, detectors and electronics for global OEMs that demand **high-reliability, high-performance engineered electronics solutions**
- ✓ **Efficient, low-cost global manufacturing footprint that minimizes exposure to China**
- ✓ **Portfolio targets high-margin opportunities in high tech industries and value-added services** including engineering support, sub-assembly and electronic device manufacturing
- ✓ **Top-tier customers in aerospace & defense, homeland security, medical, clinical diagnostics, communications, automotive, automation, gaming, consumer products, and industrial markets**
- ✓ **Intercompany sales** to Security and Healthcare divisions enhance consolidated margin

## PORTFOLIO POSITION

\* Based on FY 2022 third party net sales

## OSI HEALTHCARE DIVISION

### MEDICAL MONITORING SYSTEMS & DEVICES

# OSI Healthcare Division: Global Supplier of Medical Monitoring Systems & Devices

## BUSINESS OVERVIEW

- ✓ **Broad portfolio of connected care solutions** for patient monitoring, cardiology & remote monitoring, supplies & accessories and SaaS solutions
- ✓ **Expanding addressable market with strategic investments in digital health solutions**
- ✓ **Multi-year contracts with major healthcare GPOs, IDNs, and ACOs**
- ✓ **Large installed base** of products providing **recurring revenue** through SaaS, services and supplies
- ✓ **Acquisition of only FDA cleared AI/ML predictive analytics platform of its kind**
- ✓ **New product introductions in the pipeline** for patient and remote monitoring
- ✓ **Strong reputation with ~60 years of experience** providing enterprise solutions to major healthcare systems
- ✓ **Positioned for growth with newer leadership, upgraded team, and exciting new products**
- ✓ **Highest gross margin** OSI division

## PORTFOLIO POSITION

## BRAND

## SELECTED CUSTOMERS & RELATIONSHIPS

PREMIER

HEALTHTRUST™

# Market Penetration Opportunity with Expanding Portfolio in Patient Monitoring & Connectivity

## GROWTH OPPORTUNITIES

- Aging population, rising chronic conditions and increased government investments driving demand for patient monitoring
- Continued investment in cloud and digital health expands connected care capabilities to assist clinicians in coordination across the care continuum
- Recent acquisition of AI clinical decision support software enhances the value proposition of SafeNSound™ and new product introductions while improving gross margins
- Focusing on large system opportunities with new business models
- Multiple customer touchpoints through service and supplies & accessories
- Strategic alliances allow Spacelabs' solutions to assist providers in achieving the goal of improving outcomes with enhanced patient experience, higher staff satisfaction, and lower costs

## INDUSTRY LEADERSHIP

- ✓ **Leading supplier** with expanding product lines and strategic alliances that provide Spacelabs customers a differentiated patient monitoring solution
- ✓ **Technology innovator**
  - Solutions that promote **clinical efficacy** with improved analytics, workflow and communications
  - Easy **integration** with unique open architecture platform for **faster deployment and increased connectivity**
  - Seamless implementation with the customer's existing IT infrastructure, leading to lower total cost and increased overall value.

**SPACELABS**  
HEALTHCARE

# New Innovations and Introductions Provide Opportunity in Cardiology Systems and Accessories Markets

## GROWTH OPPORTUNITIES

- **Cardiology Systems:** Increasing demand for ECG carts and ambulatory cardiology monitoring with data management solutions and connectivity
  - ✓ Growing adoption of consumer wellness wearables driving growth in physician prescribed long-term ambulatory cardiac monitoring
  - ✓ Adding ECLIPSE® Mini in U.S. to enhance portfolio of newly launched ECLIPSE® Pro, CARDIOPULSE® Go, CARDIOPULSE® Prime, and LIFESCREEN® Pro
  - ✓ Advanced arrhythmia analytics and diagnostics solutions provide access to the expanding atrial fibrillation and stroke risk health-check markets
  - ✓ Sentinel® 11 cardiology information management combines optimized workflow and patient management with enhanced cybersecurity, and ease of interoperability with EHR systems
- **Accessories:** For large installed base of Ambulatory Blood Pressure, Event Monitoring, Holter recording, and 12-lead EKG systems

## INDUSTRY LEADER ACROSS MARKETS

- **Broad range of offerings and distribution network with large installed base** allows for technology innovation, improved clinical outcomes, diagnostics and information management solutions

- ✓ Scale, momentum, and large backlog to continue to deliver profitable growth
- ✓ Attractive and growing markets
- ✓ Competitive strengths in technology leadership, integrated operations experience, SaaS and vertically-integrated, low-cost manufacturing
- ✓ Acquisitions enhanced competitive position in security business
- ✓ Expanding global footprint and customer base
- ✓ Diversified revenue model: turnkey, systems, service and components
- ✓ Attractive business development pipeline with strong cash flow and liquidity for continued investment

✓ Robust product pipeline delivering next-gen solutions

✓ Contract wins increasing competitive position

✓ Operating margin improvement

✓ Strong balance sheet

## CATALYSTS FOR CONTINUED GROWTH IN PLACE

✓ Expanding global terrorism threat

✓ Security division turnkey & SaaS models

✓ Large security government contracts

✓ RTT® new product sales

✓ Broad security portfolio

✓ Well positioned in optoelectronics sector

✓ Higher-margin electronics customer sales

✓ New markets for existing technologies

✓ Aging population

**OSI SYSTEMS, INC.**
