

OSI SYSTEMS, INC.

SECURITY, OPTOELECTRONICS AND HEALTHCARE
SOLUTIONS FOR A SAFER & HEALTHIER WORLD

Investor Presentation
July 2024

Safe Harbor

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements relate to the Company's current expectations, beliefs, and projections concerning matters that are not historical facts and are not guarantees of future performance. Forward-looking statements involve uncertainties, risks, assumptions and contingencies, many of which are outside the Company's control and which may cause actual results to differ materially from those described in or implied by any forward-looking statement. Such statements include, but are not limited to, information provided regarding expected revenues, earnings, growth, and operational performance for fiscal 2024 and thereafter. For a further discussion of factors that could cause the Company's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2023 and other risks described therein and in documents subsequently filed by the Company from time to time with the Securities and Exchange Commission. All forward-looking statements are based on currently available information and speak only as of the date on which they are made. Investors should not place undue reliance on forward-looking statements as a prediction of actual results. The Company assumes no obligation to update any forward-looking statement made in this investor presentation that becomes untrue because of subsequent events, new information or otherwise, except to the extent it is required to do so in connection with its ongoing requirements under federal securities laws.

This presentation includes certain non-GAAP financial measures. The presentation of these non-GAAP figures is provided to allow for the comparison of the underlying performance of the Company, net of impairment, restructuring, and other charges (including certain legal costs), amortization of intangible assets acquired through business acquisitions, gain on sale of property in fiscal 2022, and non-cash interest expense primarily related to convertible debt, and their associated tax effects, and the impact of discrete income tax items including charges resulting from the Tax Cuts and Jobs Act (the "Tax Act"). Although we exclude amortization of acquired intangible assets from our non-GAAP figures, revenue generated from such intangibles is included within revenue in determining non-GAAP financial performance of the Company. Management believes that these non-GAAP financial measures provide (i) enhanced insight into the ongoing operations of the Company, (ii) meaningful information regarding the Company's financial results (excluding amounts management does not view as reflective of ongoing operating results) for purposes of planning, forecasting, and assessing the performance of the Company's businesses, (iii) a meaningful comparison of financial results of the current period against results of past periods, and (iv) financial results that are more comparable to financial results of peer companies than are GAAP figures. Non-GAAP financial measures should not be assessed in isolation or as a substitute for measures of financial performance prepared in accordance with GAAP. These non-GAAP measures may not be the same as measures used by other companies due to possible differences in methods and in the items or events for which adjustments are made. Reconciliations of GAAP to non-GAAP financial information are included within this presentation.

OSI Systems is a Leading Global Provider of Advanced, High-Reliability Electronics Solutions for Critical Applications **in Diversified Essential Markets**

SECURITY

Develops and manufactures **security screening systems, solutions and services** for critical government & civil infrastructure, border & port security, aviation, public facilities and events

OPTOELECTRONCS

Designs and manufactures **advanced custom electronic components & solutions such as photodetectors, laser diodes, and flex circuits** for **OEMs** for assembly of advanced electronics in diverse end markets

HEALTHCARE

Develops, manufactures and distributes **patient monitoring, cardiology, connected care & remote monitoring** solutions for hospital and cardiac care markets

\$1.3B REVENUE
(Fiscal Year Ended June 30, 2023*)

* Third party net sales

OSI SYSTEMS, INC. is a Highly Compelling Investment Opportunity

1

Strong business model supported by **meaningful macro tailwinds**, with **high recurring and reoccurring sales across diverse, growing end markets**

2

Track record of robust financial performance and growth momentum; business is **poised to become #1 player in global screening and detection**

3

Focused R&D has driven technological innovation, with **100,000+ installed systems** validating leadership position in security screening market

4

Marquee, blue-chip customer base is a testament to strength in technology, product, and brand reputation

5

Visionary management team with a **proven track record** and averaging over 25 years with OSI Systems

Step-change in Scale and Positioned for Accelerated Growth

- **Strong organic growth** driven by significant bookings

- **Backlog up significantly with large contract wins** positioning the Company for revenue acceleration

- Large and growing global **marquee customer base**

- **Technology leadership, portfolio breadth, turnkey solutions experience, and vertically-integrated, low-cost manufacturing delivering competitive advantage**

- **Robust product pipeline** delivering next-gen solutions

- **Growing service contribution increasing recurring revenue**

FY24 Revenue Guidance

LOW LEVERAGE POSITION

Markets with Macro Tailwinds Provide Considerable Growth Opportunities

SECURITY

Heightened global demand for high-performance threat detection screening solutions spurred by **public and private sector** mandates

Market Tailwinds

Growth Opportunities / Competitive Strengths

- **Innovative, affordable, and flexible end-to-end offerings** in security screening solutions market
- Superior track record and global presence in **large-scale integrated, turnkey solutions**
- Pipeline of **advanced cost-effective solutions**

OPTOELECTRONICS

Strong demand for specialized optoelectronics resulting from electrification and digitization of **broad range of products**

- Large and growing customer base actively seeking versatile partners offers **higher-margin opportunities across multiple industries**
- **Competitive manufacturing cost structure**
- **New technologies / new products** (e.g., high density flex circuits and hi-rel semiconductors)

HEALTHCARE

Increasing demand for efficient healthcare solutions to serve **aging population**

- **Multi-year contracts** with major Group Purchasing Organizations (GPOs)
- **New product introductions**
- **Clinical Decision Support analytics and Clinical Workflow**
- Positioning for **emerging hospital-to-home health continuum** patient monitoring

BROAD, LEADING TECHNOLOGY PLATFORMS AND PRODUCT LINES PROVIDE HIGHLY ATTRACTIVE ONE-STOP-SHOP ADVANTAGE

- ✓ Deep expertise in critical technologies and a **proven track record of delivering breakthrough solutions**
- ✓ Security division acquisitions complemented pre-existing technology suite and significantly expanded platform and pipeline
- ✓ **New product introductions and acquisitions with strong revenue potential**
- ✓ Significant ongoing investment in R&D to grow product pipelines and continuously improve performance

Advisor to U.S. Department of Homeland Security on advanced technology development initiatives

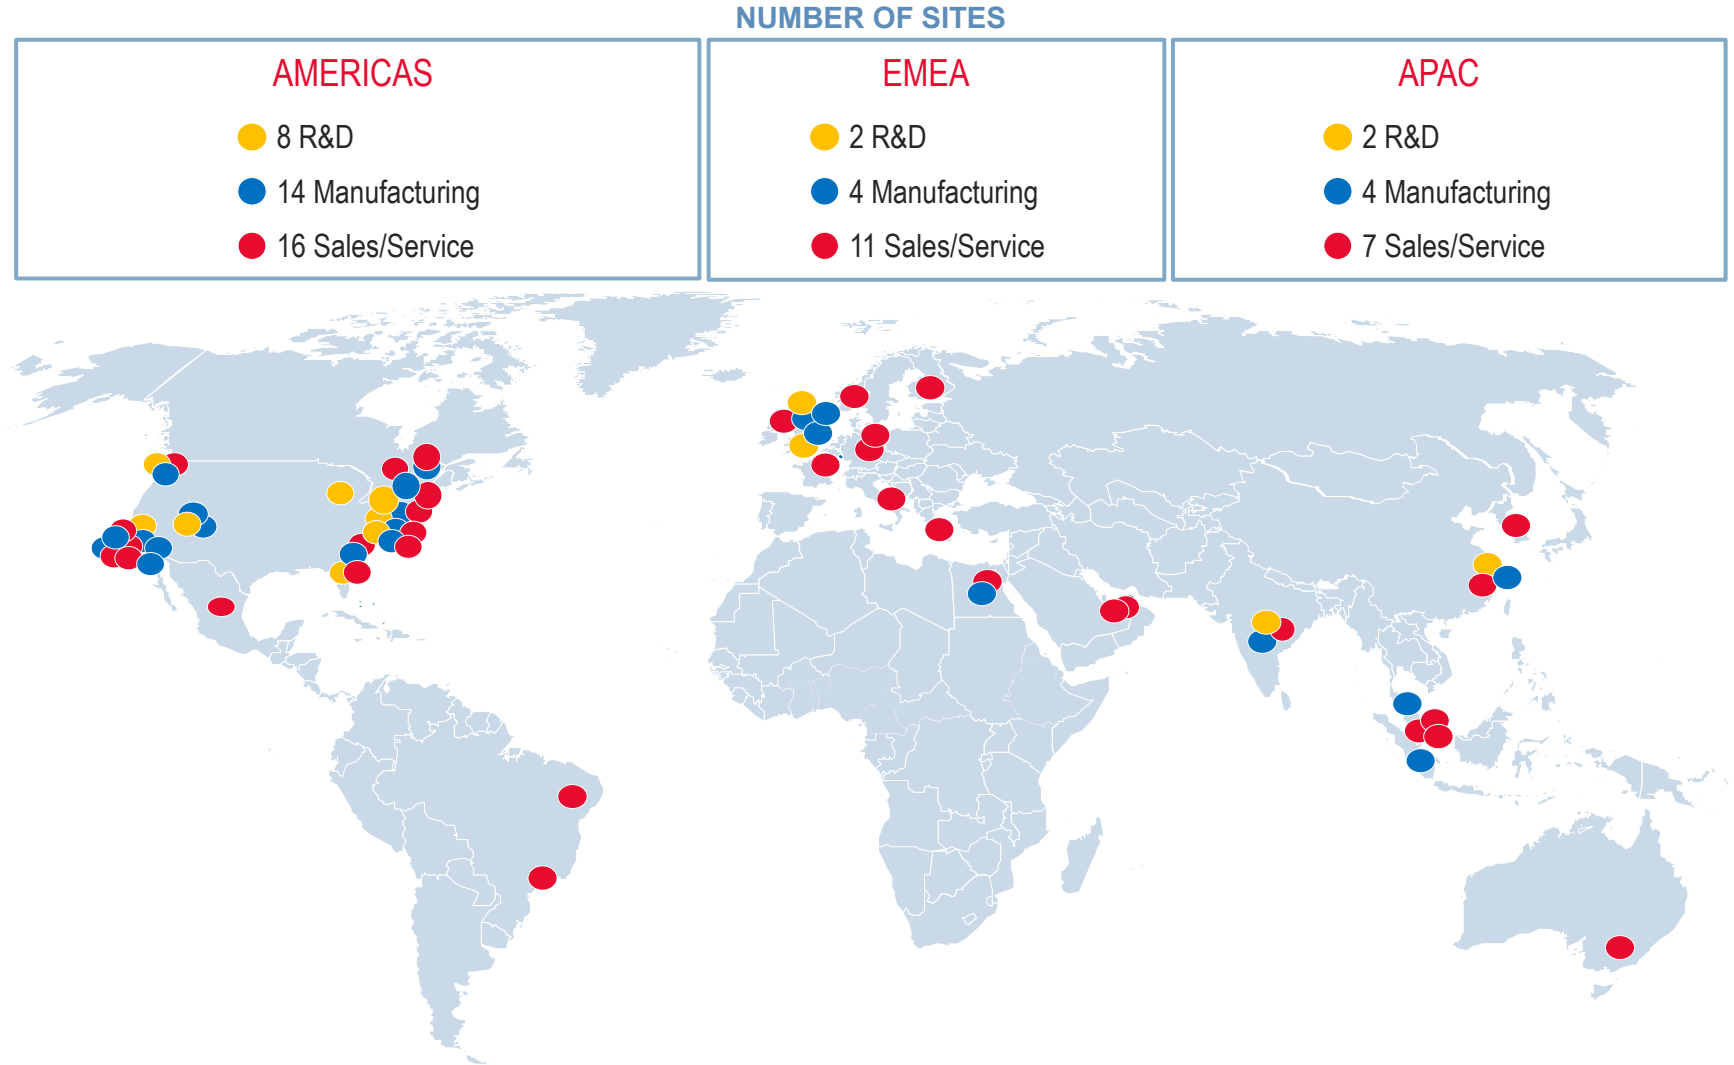

"...the best equipment we have out there."

- U.S. Customs and Border Protection

Global **Vertically-Integrated** Footprint

Global engineering and manufacturing expertise, vertical integration, efficient cost structure, global sales channel, and service excellence provide competitive advantage

OSI SYSTEMS, INC.

SECURITY

GLOBAL LEADER IN SECURITY SCREENING SOLUTIONS

OSI Security Division: Global Leader in Security Screening Market

Rapiscan Systems | AS&E | S2 Global

BUSINESS OVERVIEW

- ✓ **Leading global provider of security inspection solutions, equipment and services** for aviation, ports, rail, customs and border protection, event security, critical infrastructure, public facilities, and law enforcement
- ✓ Superior scale, breadth of offering, and competitive position
- ✓ Leadership in large turnkey projects
- ✓ Leadership in integrated screening solutions
- ✓ Hardware, software and AI technology leader

SCREENING SOLUTIONS

S2 Global Turnkey Security as a
Service Solution
S2 Global Software as a Service
CertScan® Integration Platform
S2 University

Demonstrated ability to develop, integrate, and operate comprehensive large-scale solutions with cutting-edge screening systems, staffing, and training support

CHARACTERISTICS

- ✓ Flexible, **service-based revenue model** – scanning industry first
- ✓ **Large-scale, multi-year** projects with recurring revenue
- ✓ Represents a meaningful portion of division revenues
- ✓ **Higher margin** sales
- ✓ Capex requirement in initial build-out phase with solid return on investment
- ✓ Longer sales cycle

GROWTH OPPORTUNITIES

- ✓ Global demand for large-scale, state-of-the-art, integrated screening solutions in cargo inspection segment
- ✓ Expanding beyond cargo segment over long term, including expansion into air freight, passengers and events
- ✓ Deploying solution tools for integration and training as SaaS model with recurring revenue
- ✓ **Significant opportunity pipeline**

Field Service

- ✓ 24/7 global service team provides expert support to customers from pre-installation operations analysis to operator training
- ✓ Installation, repair, and maintenance of equipment in the field
- ✓ Largest contributor to recurring revenue

Growth Drivers

- ✓ Growing installed base requiring ongoing maintenance
- ✓ Driving renewals of expiring product warranties
- ✓ Selectively shifting from certain distributors to a direct service and support model in key growth regions
- ✓ Servicing and maintaining third party equipment

Security as a Service

- ✓ Multi-year comprehensive follow-on service and on-site maintenance support contracts and training programs
- ✓ Global operations
- ✓ Higher margin sales
- ✓ A key factor in recent \$200M+ and \$500M+ contract awards

Growth Opportunity

- ✓ Global public and private mandates for always-on, effective, advanced technologies and highly-trained operators capable of delivering high-speed inspections at large scale and efficient operating cost
- ✓ **Moving into adjacent markets by providing operational expertise, CertScan® integration software and S2 University training platforms**

Software as a Service

- ✓ CertScan® leading inspection integration platform provides automated, real-time insights for borders, trade, transport and events
- ✓ Remote monitoring of multiple inspection sites
- ✓ Automation of inspection operations worldwide
- ✓ Artificial intelligence for inspection operations
- ✓ Seamless integration with third-party hardware

Growth Opportunity

- ✓ Rising demand for innovative information management for scanning and manifest data
- ✓ Leading inspection integration platform driving automation of processes and information delivery for decision making
- ✓ Inter-agency, cross-country, and commercial data sharing
- ✓ Large and growing global installed base

Cargo and Vehicle Inspection Systems: Significant Global Penetration Opportunity with New Portfolio Additions

INDUSTRY LEADERSHIP

- ✓ **Strong market share of wide range of scanning technologies enhanced with acquired Z Backscatter® cargo and vehicle scanning systems**
- ✓ Significant contract wins in the U.S., Middle East, and Latin America
- ✓ High image quality with flexible configurations
 - ✓ Mobile, portal, gantry, ruggedized
 - ✓ Integration of transmission and backscatter technologies
- ✓ Proven screening services business model (industry-first): low upfront cost to outsource service; full benefit without cost of ownership

GROWTH OPPORTUNITIES

- ✓ **Demand in U.S. and international markets for increased customs inspections, border and force protection, and narcotics interdiction**
- ✓ Government and private port, border, facility security, and law enforcement applications
- ✓ Customs agencies today scan only a low percentage of inbound trade

Hold Baggage Screening Systems: Significant Replacement Opportunity with Patented High-Performance Next-Gen CT Technology – RTT® 110

GLOBAL HOLD (CHECKED) BAGGAGE SCREENING MARKET OVERVIEW

- ✓ EU mandatory transition from conventional multi-view X-ray (EDS Standard 2) to CT (EDS Standard 3)
- ✓ Air cargo market upgrading to ACSTL and EDS Standard 3
- ✓ New markets developing outside of aviation

RAPISCAN RTT

- ✓ RTT110 is ECAC, TSA, ACSTL and CAAC approved
- ✓ Leading capability in aviation and parcel screening driven by efficient and reliable integration and detection platforms
- ✓ Large and fast-growing installed base including Paris, Rome, UK, Oslo and Dubai airports together with DHL, FedEx, UPS and other parcel forwarders
- ✓ Detection and imaging utilizing patented Real Time Tomography (RTT) technology
- ✓ Low life-cycle cost – proving highly attractive to customers
- ✓ Recent algorithm development of the RTT110 has enabled branching into bio-security

High-Performance Baggage and Parcel Inspection Systems: Well-Positioned in Expanding Government and Commercial Markets

INDUSTRY LEADERSHIP

- ✓ Checkpoint X-ray system – **strong worldwide market share**
 - Significant installed base
 - Single and dual-view technology, superior imaging, and high efficiency
 - Pipeline of competitive products with industry-leading image quality
 - Ergonomic industrial design to suit contemporary airport concourse architectures
 - **Global regulatory approvals**
 - Wide set of aviation and cargo certifications support U.S. and international deployment

GROWTH OPPORTUNITIES

- ✓ Approved air cargo screening systems
- ✓ **Replacement life cycle business**
- ✓ **Emerging market opportunities**
- ✓ **Latest ORION® suite of products**
- ✓ Non-aviation (sports / public venues, government, critical infrastructure)
- ✓ Integrated checkpoint solutions
- ✓ CT at the checkpoint (initial focus on international opportunities)
- ✓ Aviation employee screening

Trace Detection: Opportunity to Capitalize with Leading Products

INDUSTRY LEADERSHIP

- ✓ Suite of industry-leading, patented technologies with high sensitivity and low false alarm rates
- ✓ Itemiser® 5X – Added to TSA Air Cargo Screening Technology List in 2023. Certified by the Civil Aviation Administration of China (CAAC) in 2022.
- ✓ Desktop, handheld, and walk-through portal products
- ✓ Trusted partner to international governments for critical infrastructure protection
- ✓ Global service and training organization

GROWTH OPPORTUNITIES

- ✓ International aviation market opportunity
- ✓ Additional opportunities beyond aviation for critical infrastructure, events, transportation hubs, first responders and borders
- ✓ Narcotics (including opioids) detection market for prisons
- ✓ Profitable, recurring service and consumable revenue stream as well as replacement market opportunities
- ✓ New certifications open up new markets

OPTOELECTRONICS AND MANUFACTURING

SENSORS, DETECTORS, AND ELECTRONICS

Leading Provider of Advanced, Custom, High-Precision Optoelectronic and Electronic Assembly Systems

BUSINESS OVERVIEW

- ✓ Sought-after, trusted partner of leading, innovative sensors, detectors and electronics for global OEMs that demand **high-reliability, high-performance engineered electronics solutions**
- ✓ **Efficient, low-cost global manufacturing footprint that minimizes exposure to China**
- ✓ **Portfolio targets high-margin opportunities in high tech industries and value-added services** including engineering support, sub-assembly and electronic device manufacturing
- ✓ **Top-tier customers** in aerospace & defense, homeland security, medical, clinical diagnostics, communications, automotive, automation, gaming, consumer products, and industrial markets

PREMIER

HEALTHTRUST™

PORTFOLIO POSITION

BRAND

* Based on FY23 third-party net sales

Market Penetration Opportunity with Expanding Portfolio in Patient Monitoring & Connectivity

GROWTH OPPORTUNITIES

- Aging population, rising chronic conditions and increased government investments driving demand for patient monitoring
- Growing focus on **subscription-based revenue** with rollout of new **“monitoring as a service”** model
- Continued investment in cloud and digital health expands connected care capabilities to assist clinicians in coordination across the care continuum
- Recent acquisition of AI clinical decision support software enhances the value proposition of SafeNSound™ and new product introductions
- Focusing on large system opportunities with new business models
- Multiple customer touchpoints through service and supplies & accessories
- Strategic alliances allow Spacelabs' solutions to assist providers in achieving the goal of improving outcomes with enhanced patient experience, higher staff satisfaction, and lower costs

INDUSTRY LEADERSHIP

- ✓ **Leading supplier** with expanding product lines and strategic alliances that provide Spacelabs customers a differentiated patient monitoring solution
- ✓ **Technology innovator**
 - Solutions that promote **clinical efficacy** with improved analytics, workflow and communications
 - Easy **integration** with unique open architecture platform for **faster deployment and increased connectivity**
 - Seamless implementation with the customer's existing IT infrastructure, leading to lower total cost and increased overall value

New Innovations and Introductions Provide Opportunity in Cardiology Systems and Accessories Markets

GROWTH OPPORTUNITIES

- **Cardiology Systems:** Increasing demand for ECG carts and ambulatory cardiology monitoring with data management solutions and connectivity
 - ✓ Growing adoption of consumer wellness wearables driving growth in physician prescribed long-term ambulatory cardiac monitoring
 - ✓ ECLIPSE® Mini U.S. launch to enhance portfolio of newly launched ECLIPSE® Pro, CARDIOPULSE® Go, CARDIOPULSE® Prime, and LIFESCREEN® Pro
 - ✓ Advanced arrhythmia analytics and diagnostics solutions provide access to the expanding atrial fibrillation and stroke risk health-check markets
 - ✓ Sentinel® 11 cardiology information management: scalable and flexible; combines optimized workflow and patient management with enhanced cybersecurity and ease of interoperability with EHR systems
- **Accessories:** For large installed base of Ambulatory Blood Pressure, Event Monitoring, Holter recording, and 12-lead ECG systems

INDUSTRY LEADER ACROSS MARKETS

- **Broad range of offerings and distribution network with large installed base** allows for technology innovation, improved clinical outcomes, diagnostics and information management solutions

SUMMARY

OSI Systems – Technology Leader Well-Positioned for Continued Growth

- ✓ Scale, momentum in large contract awards, significant backlog, and high-performance culture to deliver continued profitable growth and increased visibility
- ✓ Attractive and growing markets
- ✓ Diversified revenue model: turnkey, systems, software, services and components
- ✓ Competitive strengths in technology leadership, integrated operations experience, SaaS and vertically-integrated, low-cost manufacturing
- ✓ Acquisitions enhanced competitive position in security business
- ✓ Expanding and attractive global footprint and customer base
- ✓ Attractive business development pipeline with strong cash flow and liquidity for continued investment

CATALYSTS FOR CONTINUED GROWTH IN PLACE

- ✓ Global terrorism threats
- ✓ Security – turnkey & SaaS models
- ✓ Security – large government contracts
- ✓ Security – RTT® new product sales
- ✓ Optoelectronics – attractive customer base
- ✓ Healthcare – monitoring as a service
- ✓ Macro tailwinds
- ✓ New markets for existing technologies
- ✓ New product launches
