OSI Systems Receives EU Security Certification for Liquid Explosives Detection with Carry-On Baggage Scanner

HAWTHORNE, Calif.--(BUSINESS WIRE)-- [OSI Systems, Inc.](#) (NASDAQ: OSIS), a vertically-integrated provider of specialized electronics and services, today announced that its Security division Rapiscan's 620DV (Dual View) advanced baggage scanner has passed the European Civil Aviation Conference's (ECAC) common evaluation process (CEP) Standard 2 threat detection test for Liquid Explosive Detection Systems (LEDS). The 620DV has also been approved for use by the US Transportation Security Administration (TSA).

"More than ever, airports need a complete and cost effective screening solution that can not only detect conventional explosive threats but also differentiate between threatening and benign liquids," said Ajay Mehra, President, Rapiscan Systems. "Rapiscan's 620DV is the ideal solution for airports, airlines and regulators across the globe striving to meet the challenges posed by liquids in carry-ons; the 620DV provides an affordable, high-performance security solution that meets the regulatory requirements of today and emerging measures in the future."

The Rapiscan 620DV has also been approved for use by the UK's Department for Transport and the US Transportation Security Administration for both aviation checkpoint screening and air cargo screening. It can also be used for critical non-aviation applications such as military checkpoints, customs inspection and the protection of national infrastructure.

About OSI Systems, Inc.

OSI Systems, Inc. is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications in the homeland security, healthcare, defense and aerospace industries. We combine more than 30 years of electronics engineering and manufacturing experience with offices and production facilities in more than a dozen countries to implement a strategy of expansion into selective end product markets.
