OSI Systems Receives \$1.3 Million Order for Bone Densitometers

HAWTHORNE, Calif., Sep 30, 2009 (BUSINESS WIRE) -- OSI Systems, Inc. (NASDAQ: OSIS), a vertically-integrated provider of specialized electronic products for critical applications in the Security and Healthcare industries, today announced that it has received a contract for approximately \$1.3 million from an undisclosed international customer to deliver its DTX-200 DexaCare(R) bone densitometers.

The DTX-200 DexaCare(R) bone densitometer is a mobile diagnostic system used to perform bone mass density measurements and to support the treatment of osteoporosis as early as possible. The product utilizes dual energy X-ray technology to scan the patient's forearm to accurately assess bone density.

About OSI Systems, Inc.

OSI Systems, Inc. is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications in the homeland security, healthcare, defense and aerospace industries. We combine more than 30 years of electronics engineering and manufacturing experience with offices and production facilities in more than a dozen countries to implement a strategy of expansion into selective end product markets.
