

OSI Systems Reports First Quarter Fiscal 2015 Financial Results

- Record Q1 Earnings Per Share
 - GAAP of \$0.55 (77% increase over prior year)
 - Non-GAAP of \$0.57 (24% increase over prior year)
- Record Q1 Revenue of \$218 million
- Company raises FY 2015 Sales guidance to \$970 million \$995 million.
- Company raises FY 2015 non-GAAP Earnings guidance to \$3.53 \$3.76 per share

HAWTHORNE, Calif.--(BUSINESS WIRE)-- OSI Systems, Inc. (NASDAQ: OSIS) today announced financial results for the quarter ended September 30, 2014.

Deepak Chopra, OSI Systems' Chairman and CEO, stated, "We are pleased to report solid first quarter performance which delivered record-breaking revenue, earnings and free cash flow providing a strong start to our fiscal year. Led by our Security division, our non-GAAP earnings increased 24% over the prior year."

The Company reported revenues of \$218.4 million for the first quarter of fiscal 2015, an increase of \$12.1 million, or 6%, from the \$206.3 million reported for the first quarter of fiscal 2014. Net income for the first quarter of fiscal 2015 was \$11.2 million, or \$0.55 per diluted share, compared to net income of \$6.4 million, or \$0.31 per diluted share, for the first quarter of fiscal 2014. Excluding the impact of restructuring and other charges, net income for the first quarter of fiscal 2015 would have been approximately \$11.8 million, or \$0.57 per diluted share, compared to net income of \$9.4 million, or \$0.46 per diluted share, for the comparable period of fiscal 2014.

During the three months ended September 30, 2014, the Company generated \$28.0 million of free cash flow. Adjusted EBITDA during the quarter was \$41.1 million, an increase of 24% over the comparable period of fiscal 2014. As of September 30, 2014, the Company's backlog was \$0.8 billion, which was comparable to the amount as of June 30, 2014. Capital expenditures for the period totaled \$3.1 million.

Mr. Chopra continued, "Our Security division reported a 17% topline increase as a result of strong equipment sales, including partial fulfillment of our Foreign Military Sales contract to the U.S. Department of Defense. This sales growth combined with operating margin expansion led to record first-quarter Security division operating income of \$17.3 million, a 31% increase over the prior year amount, excluding the impact of restructuring and other charges."

Mr. Chopra concluded, "Our Healthcare division's bookings during the first quarter increased significantly year-over-year, although the timing of certain orders did not enable us to fulfill many orders until the subsequent quarter. The resultant higher backlog and the opportunity pipeline leave us optimistic for the future in our Healthcare division."

Fiscal Year 2015 Outlook

The Company is raising its sales guidance for fiscal 2015 to \$970 million - \$995 million. In addition, the Company is raising its earnings guidance and expects diluted earnings to increase at a rate of 13% to 20% over fiscal 2014 to \$3.53 - \$3.76 per share, excluding the impact of impairment, restructuring and other non-recurring charges, and the impact of certain tax elections.

Presentation of Non-GAAP Financial Measure; Non-GAAP Figures

This earnings release includes a presentation of Adjusted EBITDA, a non-GAAP financial measure. Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that we believe is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Its introduction coincided with the Company's shift to increased levels of capital intensive turnkey screening services and the accompanying higher depreciation. Adjusted EBITDA is defined as net income, plus net interest expense, provision for income taxes and depreciation and amortization, as further adjusted to eliminate the impact of stock-based compensation, and impairment, restructuring and other charges. Not all companies use identical calculations and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies. Adjusted EBITDA is not a recognized term under

accounting principles generally accepted in the United States and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. In addition, the Company uses Adjusted EBITDA to evaluate the effectiveness of the Company's business strategies and because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants.

Discussion of adjustments to arrive at non-GAAP net income and diluted earnings per share figures and Adjusted EBITDA for the three months ended September 30, 2013 and 2014 is provided to allow for the comparison of underlying earnings, net of restructuring and other charges. We believe that providing these non-GAAP figures provides additional insight into the ongoing operations of the Company. Non-GAAP financial measures should not be considered in isolation or as a substitute for measures of financial performance prepared in accordance with GAAP. We believe that these non-GAAP financial measures provide meaningful supplemental information regarding the Company's results primarily because they exclude amounts that we do not view as reflective of ongoing operating results when planning and forecasting and when assessing the performance of the business. We believe that our non-GAAP financial measures also facilitate the comparison of results for current periods and guidance for future periods with results for past periods.

Reconciliations of GAAP to non-GAAP net income and diluted earnings per share, and net income to Adjusted EBITDA are provided in the accompanying tables.
