## **OSI Systems Awarded \$9.3 Million Delivery Order For TSA's Advanced Technology Program**

**October 04, 2007: Hawthorne, CA**

OSI Systems, Inc. (Nasdaq:OSIS), a vertically-integrated provider of specialized electronic products for critical applications in the security and healthcare industries, announced today that its Security division, Rapiscan Systems, has been awarded a \$9.3 million contract from the Transportation Security Administration (TSA) for its 620DV Advanced Technology X-ray systems.

The contract, representing half of the total systems currently ordered by TSA, follows successful piloting of Advanced Technology (AT) Passenger Carry-On Bag Screening Systems at select airport locations. Under the terms of the agreement, the Company expects to begin delivering the systems to the TSA in the second quarter of the Company's fiscal year.

Rapiscan Systems President, Ajay Mehra, stated, We are pleased to be working closely with the TSA in this critical program. This program represents the deployment of one of the most advanced technologies available today for passenger checkpoint screening. The Rapiscan 620DV system is designed specifically to detect aviation based threats while improving checkpoint operations.

### **About OSI Systems, Inc.**

OSI Systems, Inc. and its subsidiaries is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications. The Company sells its products in diversified markets, including homeland security, healthcare, defense and aerospace. The Company has more than 30 years of experience in electronics engineering and manufacturing and maintains offices and production facilities located in more than a dozen countries. OSI Systems implements a strategy of expansion by leveraging its electronics and contract manufacturing capabilities into selective end product markets through organic growth and acquisitions.
