## **OSI Systems Selected by Aeroports de Paris for Advanced Baggage Inspection Solution**

HAWTHORNE, Calif.--(BUSINESS WIRE)-- [OSI Systems, Inc.](http://www.osi-systems.com) (NASDAQ: OSIS), a vertically-integrated provider of specialized electronics and services, today announced that its Security division, Rapiscan Systems, was selected by Aeroports de Paris (ADP), one of the world's largest airport owners and operators, to implement the Rapiscan 620XR carry-on baggage screening system at Charles De Gaulle International Airport and Orly International Airport. Approved for use by multiple international regulators, the 620XR is one of the most widely deployed passenger baggage screening systems in the world.

Ajay Mehra, President, Rapiscan Systems commented: "We are pleased to have been selected by Aeroports de Paris to help equip their terminals with the latest in advanced baggage screening solutions. By providing 24-hour maintenance support, Aeroports de Paris has the security of knowing that we and our French Partner, HTDS, are supporting their screening requirements comprehensively."

### **About OSI Systems, Inc.**

OSI Systems, Inc. is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications in the homeland security, healthcare, defense and aerospace industries. We combine more than 30 years of electronics engineering and manufacturing experience with offices and production facilities in more than a dozen countries to implement a strategy of expansion into selective end product markets.
