## OSI Systems Announces Official Opening of its New Manufacturing Facility in China

**March 03, 2008: Hawthorne, CA**

OSI Systems, Inc. (NASDAQ: OSIS), a vertically-integrated provider of specialized electronic products for critical applications in the Security and Healthcare industries announces today that its Healthcare Division, Spacelabs Healthcare, has officially opened its new manufacturing facility in Suzhou, China.

The approximate 55,000 square foot manufacturing facility, located approximately 50 miles west of Shanghai, will initially be focused on developing and manufacturing healthcare products for the emerging markets. The facility will also serve as the cornerstone for the Company's emerging market activities providing R&D, aftermarket service, training, marketing and sales support while also operating within the Company's global supply chain.

Mr. Deepak Chopra, CEO of OSI Systems, stated, "This world class manufacturing facility complements our global manufacturing strategy and underscores our commitment to the emerging markets. By expanding our presence in the Asia Pacific region we are able to provide our range of products at competitive prices improving our competitiveness globally. Additionally, the facility will play an integral role in our global supply chain expanding our range of suppliers and lowering our component costs for our entire product range. As a result we expect that the new facility will have a positive impact on our gross margins as we move into the next fiscal year."

About OSI Systems, Inc.

OSI Systems, Inc. and its subsidiaries is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications. The Company sells its products in diversified markets, including homeland security, healthcare, defense and aerospace. The Company has more than 30 years of experience in electronics engineering and manufacturing and maintains offices and production facilities located in more than a dozen countries.
