OSI Systems Launches Portable Walk-Through Metal Detector

HAWTHORNE, Calif., Sep 16, 2008 (BUSINESS WIRE) -- OSI Systems, Inc. (NASDAQ:OSIS), a vertically integrated provider of specialized electronics products for critical applications in the Security and Healthcare industries, announced today that its Security division, Rapiscan Systems, has launched the Metor 300 Portable walk-through metal detector.

The Metor 300 Portable is a versatile, state-of-the-art unit walk-through metal detector that combines advanced metal detection technology with practical design elements. The system was developed specifically for customer applications that require portability, high throughput and increased performance. It is especially well suited for outdoor events, temporary checkpoints, conferences, conventions, and other scenarios that require flexible security solutions. The Metor 300 Portable also features numerous advanced features, such as zone displays, intelligent traffic and alarm counters that calculate traffic flow and resultant alarms. The metal detector has the ability to be installed and operational in less than 10 minutes and is suitable for indoor or outside use and inclement weather conditions.

Rapiscan Systems President, Ajay Mehra, stated, "The Metor 300 Portable is the culmination of hard work by our engineering and product development teams, and exemplifies Rapiscan's leadership in the walk-through metal detector market. The system's flexibility and durability make it ideal for handling a wide range of applications and multiple installations in various locations."

About OSI Systems, Inc.

OSI Systems Inc. is a Hawthorne, California based diversified global developer, manufacturer and seller of security and inspection systems, medical monitoring and anesthesia products, and optoelectronic devices and value-added subsystems. The Company has more than 30 years of experience in electronics engineering and manufacturing and maintains offices and production facilities located in more than a dozen countries. OSI Systems implements a strategy of expansion by leveraging its electronics and contract manufacturing capabilities into selective end product markets through organic growth and acquisitions. For more information on OSI Systems Inc. or any of its subsidiary companies, visit www.osi-systems.com.
